Art Unit: 2833

1. The specification is objected to because the last sentence of the amended paragraph beginning on page 4, line 2, remains unclear. It is grammatically incorrect and its meaning is unknown. Appropriate corrections are required.

2. Claims 1, 2 and 4-7 are objected to because of the following informalities:  
Claim 1 lacks antecedent basis for "the adjacent penetration holes" on lines 8-9. It is suggested that "the" be deleted.

The last section of claim 1 remains unclear because the suggestion that the grooves "are displaced" has no basis from which the displacing is done. In general, the meaning of the last section of claim 1 is still unclear.

Claim 2 lacks antecedent basis for "the guide holes" on the last line. In addition, it is unclear what a "forming direction" is in regard to these guide holes.

Appropriate corrections are required.

3. Claims 1, 2 and 4-7 contain allowable subject matter.

4. This application is in condition for allowance except for the formal matters discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
